

KTSL-TK1-USB

TIME KEEPER

DESCRIPTION

Bluetooth mesh wireless battery backup time keeper, for relaying time to system components after a power loss.

APPLICATION

Ideal for small- to medium-size systems, such as schools, offices, auditoriums, and warehouses

PRODUCT FEATURES

- Commissioned via SmartLoop mobile app for iPhone and Android
- Internal CR1220 battery backup to retain time during a power outage.
- Appears as a keypad in the SmartLoop app, giving the user an additional virtual keypad
- Utilizes Bluetooth mesh technology for reliable and secure wireless communication
- Indicator LED communicates device status
- Powered by any standard USB charging port.
