& Emergency Lights

NOVEMBER 2024

A **Versatile** Portfolio

Keystone exit signs and emergency units

A wide range of safety and security options, customizable to meet the full scope of your project needs.

Keystone Exit Signs and Combo Units have multiple features built in for easy stocking and installation. We also have egress lighting options to meet the needs of any project in any city.

And, of course, they all feature Keystone power supplies. With fixture and power supply from the same company, you get guaranteed performance and reliability.

For lamps, fixtures, controls, and power supplies, we are your one-stop shop: Light Made Easy®.

Exit Signs

STANDARD

Designed to meet your needs for a variety of applications and spaces.

Available Housing Colors

SWAPPABLE COLOR INSERTS

Red or green, with removable directional arrows

SWITCHABLE LEDS

Enhances brightness of lettering for greater visibility

MULTIPLE MOUNTING POSITIONS

Surface J-Box Mounting:
Back, Side, and Top

Features & Benefits

- Single- and double-sided facings
- 120-277V universal voltage
- UL Damp Location rated
- Available in NYC and Chicago code-compliant models, see page 17-18

UL 94V-0 flame rating
Highest level flame retardancy

500mAh Ni-MH battery
Ensures minimum 90-min emergency operation

Waterproof Standard Exit Sign

- UL Wet Location, IP65 rated
- Waterproof PC cover
- Red lettering

Exit Signs

EDGE-LIT

Our edge-lit exit signs are ideal for architectural settings, offering a sleek look with a dramatic profile and versatile aesthetic.

MULTIPLE MOUNTING POSITIONS

Surface J-Box Mounting:
Back, Side, and Top

and

UNIVERSAL UNIT KIT

Includes both regressed mounting and direct wall mount accessories for walls, ceilings, and other locations

180° PIVOTING

Easily mount to wall or ceiling for proper positioning

VIBRANT COLOR

Available in red or green lettering

REMOVABLE ARROWS

Customize to point towards exit direction

ENHANCED VISIBILITY

Mirrored backing provides uniform light distribution

EMERGENCY TEST BUTTON

500mAh Ni-MH battery
Ensures minimum 90-min emergency operation

Features & Benefits

- Single- and double-sided facings
- 120-277V universal voltage
- Available in NYC code-compliant models, see page 17

Combo Units

Keystone combines exit signs with emergency lighting in a combo unit with rugged construction, strong lighting, and easy installation.

Compact Combo Dual Square

MOUNTING OPTIONS

Surface J-Box Mounting:
Back and Top

POSITIONABLE DUAL HEADS

SWAPPABLE COLOR INSERTS

Red or green, with removable directional arrows

Available Housing Colors

Large Combo

SINGLE- AND DOUBLE-FACED OPTIONS

Features removable arrows

ROTATABLE HEADS

Target light where you need it

Features & Benefits

- Rugged thermoplastic housing
- 120-277V universal voltage
- UL Damp Location rated
- Available in remote capable options
- Available in Chicago code-compliant and high-output NYC code-compliant models, see page 17-18

UL 94V-0 flame rating
Highest level flame retardancy

2400 mAh Ni-MH battery
Ensures minimum 90-min emergency operation

Waterproof Compact Combo Dual Square

- UL Wet Location, IP65 rated
- Rotatable dual heads

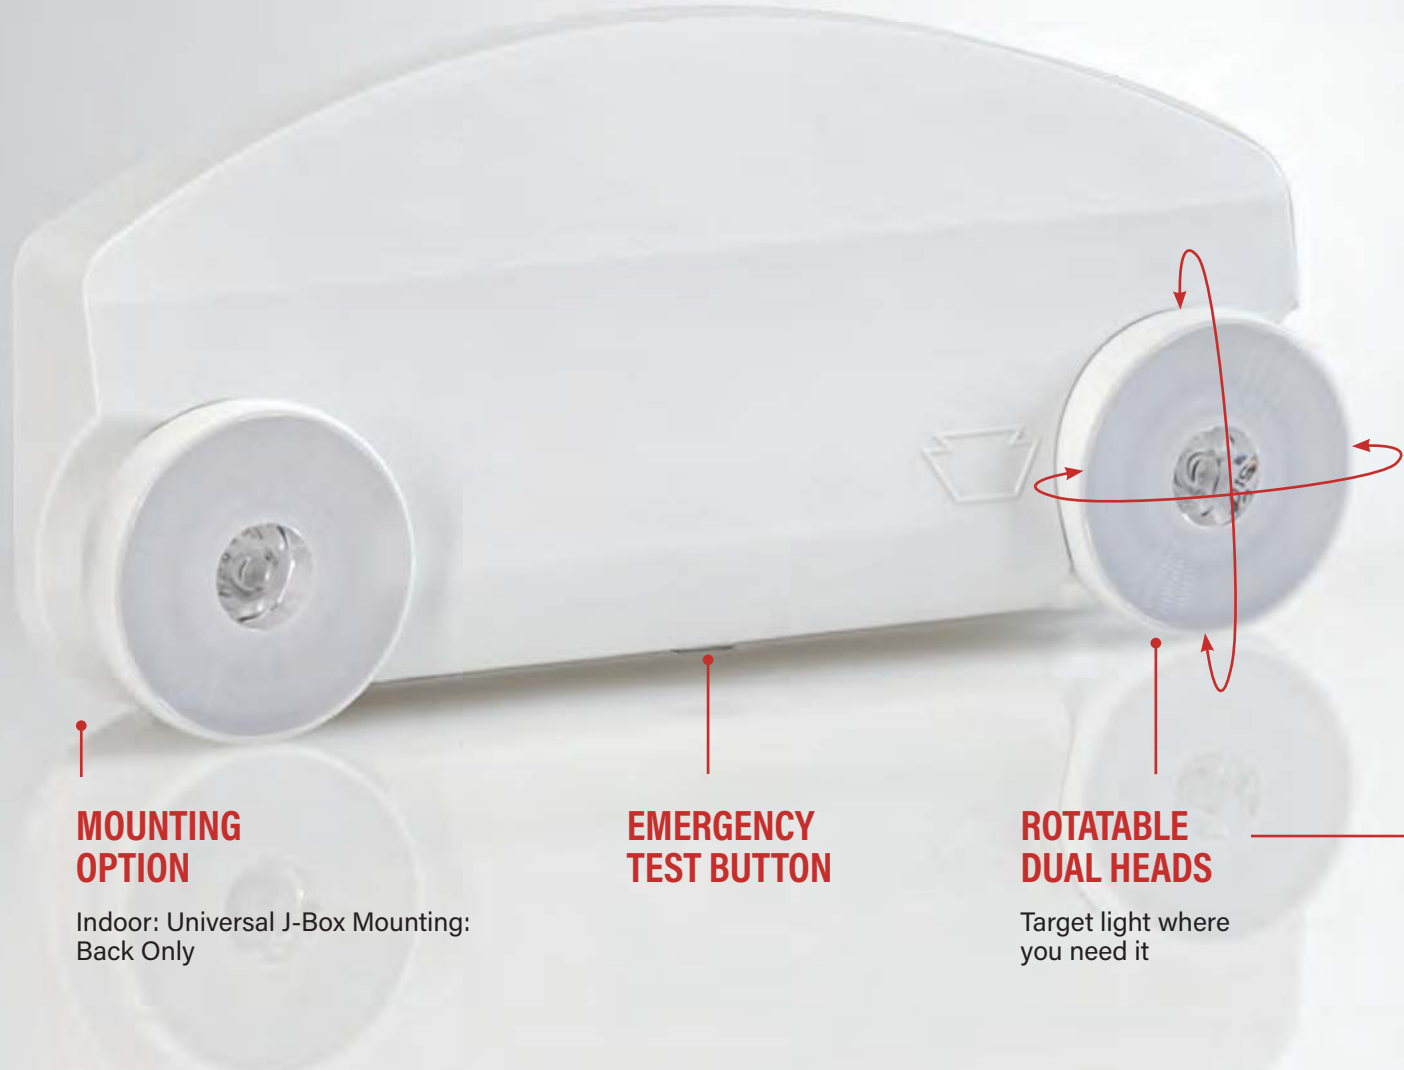

Emergency Units

Our emergency units feature all Keystone components for outstanding performance, including bright LED lighting for easy wayfinding and powerful batteries for dependability and longevity.

Available Housing Colors

Round

MOUNTING OPTION

Indoor: Universal J-Box Mounting: Back Only

EMERGENCY TEST BUTTON

ROTATABLE DUAL HEADS

Target light where you need it

Square

Features & Benefits

- 120-277 universal voltage
- 1000 mAh Ni-MH battery
- Minimum 90-minute emergency operation
- Up to 15-foot spacing for 3-foot path of egress
- Available in remote capable options
- Available in Chicago and NYC code-compliant models, see page 17-18

UL 94V-0 flame rating
Highest level flame retardancy

Waterproof

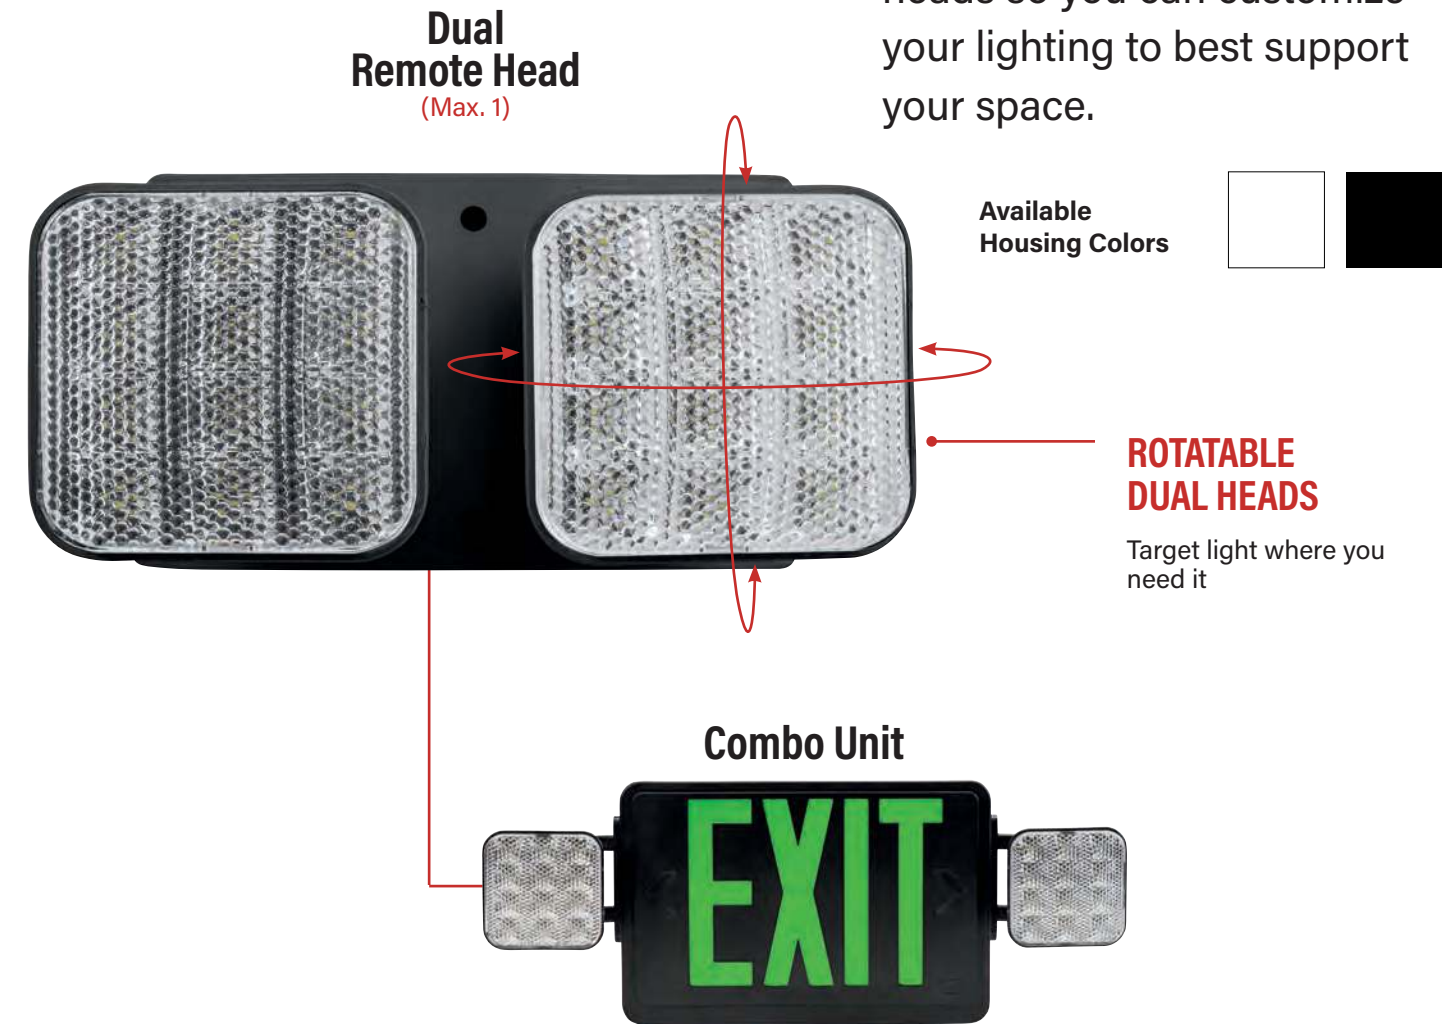

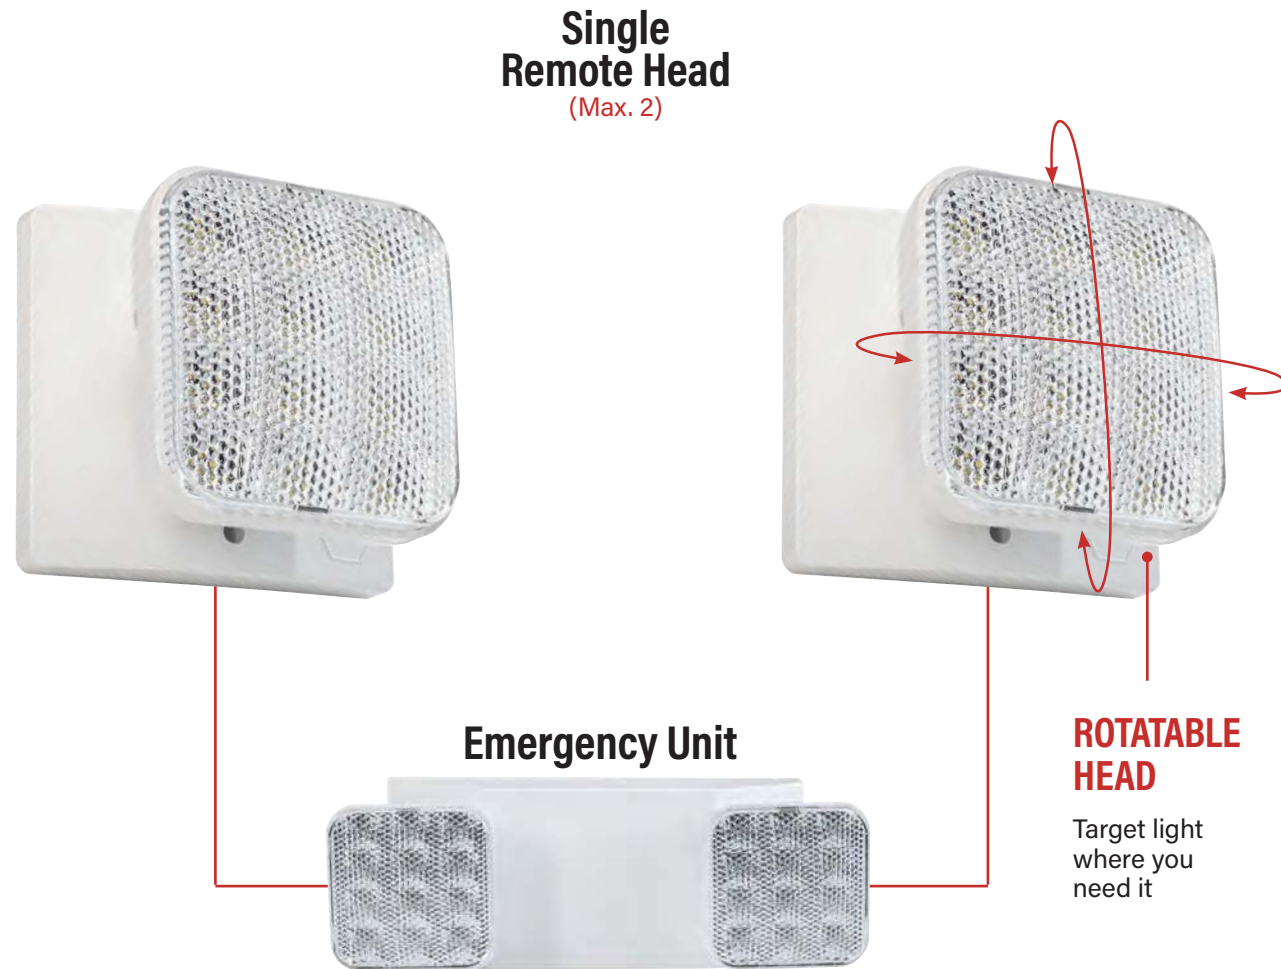

- White
- UL Wet Location, IP65 rated
- Surface J-Box mounting: Back only

Remotes

Remote capable combo and emergency units can power up to **2** single heads **or** **1** dual head unit.

A selection of remote LED heads so you can customize your lighting to best support your space.

Features & Benefits

- Minimum 90-minute emergency operation
- Remote power: simple wired connection to main unit
- Emergency fixture holds larger battery to power remote heads

UL 94V-0 flame rating
Highest level flame retardancy

Waterproof Remotes

- UL Wet Location, IP65 rated
- 100 lumens each head
- Die-cast aluminum base

Other Emergency Solutions

Our emergency solutions don't stop at the exit sign. Keystone carries a range of SmartSafe emergency backups, fixtures with emergency capabilities, replacement units, and our Emergency Tube—a true UL 924 Certified emergency tube.

We also maintain a database of lamps and fixtures compatible with our ballasts and drivers. Don't see the one you're looking for? Contact us and we'll make every effort to evaluate compatibility.
